Introduction

Complete garden design plans covering cottage, pollinator, English, wildflower, topiary, modern tropical, minimalist, and year-round blooming gardens. Each plan includes a scaled layout, plant list, hard landscaping specification, and phased implementation schedule.

Site assessment

Before choosing a design, assess your site: measure the garden, note sun/shade patterns throughout the day, test soil pH, identify existing plants worth keeping, check drainage, and note any level changes. A thorough site assessment prevents costly mistakes.

Cottage garden plan

Informal mixed borders on all sides, lawn in centre, narrow brick paths. Plant in drifts of 3-5. Key plants: roses, delphiniums, hollyhocks, foxgloves, lupins, peonies, hardy geraniums. Height: back 1.5m, middle 80cm, front 30cm. Maintenance: medium (deadheading, staking, division every 3 years).

Minimalist garden plan

Clean lines, limited plant palette, large areas of paving or gravel. Key plants: box balls, ornamental grasses (stipa, miscanthus), architectural plants (phormium, fatsia). Height: uniform 60-80cm. Maintenance: low (annual cutback, occasional weeding).

About CGM

Chiltern Garden Maintenance (CGM) operates across Oxfordshire, Buckinghamshire, Berkshire and Bedfordshire. We deliver garden clearance, regular maintenance, lawn recovery, hedge cutting, fencing, soft landscaping, pressure washing, garden design and garden analysis reports.
